

Reminiscent of times gone by, Nectar™ Naturals conjures images in which man and nature reside in harmony. Toiling in the field with one's own hands, cooking from scratch in the kitchen, picking and eating fruit fresh from the tree. Nectar™ Naturals is the obvious, evolutionary progression of our flagship product Nectar™. Containing no artificial sweeteners, colors or flavors, Nectar™ Naturals is designed for those who want only the highest quality ingredients. Nectar™ Naturals...from nature...bringing you back to nature.

Just like its predecessor, the original Nectar™, Nectar™ Naturals is made with Promina™ brand whey protein isolate. Unlike other whey isolates which are denatured by heat and chemicals and have strange aftertastes and off colors, Promina™ is produced by the gentlest cold process known. This process produces a pure, snow-white, tasteless protein powder that combines perfectly with fruit flavors to give you the Nectar™ line of delicious proteins.

SUGGESTED USE: Based on taste preference, mix 2-4 ounces of water per serving of Nectar™ Naturals. One scoop, providing 23g of protein, 0g of fat and 0g of sugar, may be mixed with 8-16 ounces of water. Consume the desired number of servings two to three times per day to satisfy your protein requirements. Remember, the best times for supplementing protein are immediately upon rising in the morning, after intense physical activity, such as weight training, and prior to sleep. Nectar™ Naturals mixes instantly with a spoon and tastes great...GUARANTEED!
